

NOTES ON USING THIS TEMPLATE

Always save it first with another name

This template has been designed for two uses:

VERSION 1

To be able to print a 4 side A4 mini brochure professionally with a double page spread in the centre

The edges of the colour blocks and footer logo design have been designed with an overlap of page edge for professional printing.
Save a high resolution version first before compressing photos ?

If sending PDF to printers for prof printing, check the following in the design:

At least a 3mm overlap of any borderless printing i.e. bottom logo and block of colour.

Check blue and turquoise colours match (yet to decide if this should match webpage colours)

If you unlock the group of boxes in the footer design, beware of stretching the design. Lock back to group to protect it.

When creating PDF for printers

Advanced setting—commercial printing—all 900dsi photos to 600dsi

A4 paper size

Crop and bleed marks needed

VERSION 2

To make this vessel brochure small enough to send by e mail, in publisher right click on a photo in the design and compress all pictures in the document

Now create PDF and save for home printing & web

Aiming for 1MB or under

No need for crops and bleeds

Check nothing is cut off—esp the address details when you print it on normal settings (i.e. without borderless option)

It should shrink it slightly to fit

Hildur

Icelandic Gaff Ketch

CLASSIC SAILING – hands on traditional sailing

Ship Specification - Hildur

Rig:	Two mast Schooner
LOA:	26m (85ft) length overall
LOD:	18m length on deck
Beam:	4.8m
Sail Area:	250 sq m (the one with white sails)

Hildur Accommodation

Your accommodation is traditional newly built bunks with a reading light. Linen, warm bedding, blankets and a set of towels is provided.

There is a simple but hot shower onboard Hildur, which is available most of the times. But please understand on Greenland Expeditions water supply can be limited, therefore we will kindly ask you to adapt.

Please understand, the space onboard is limited, also for luggage storage. You will receive an info sheet indicating your bunk once your reservation has been confirmed and booked.

"If there is one place you should visit, it has to be Greenland"

Nigel McDiarmid

CLASSIC SAILING

Greenland - Scoresby Sound - Summer Base

Each summer Hildur ventures North, deep into the Arctic Circle, to the rarely visited East Coast of Greenland. The ocean 'hop' from Iceland is quite challenging with icebergs being swept down from the North, but once schooner Hildur tucks into Scoresby Sound she has a spectacular sailing ground for the short Arctic Summer.

A few adventurous yachts now explore West Greenland, but the East Coast requires a more specialist commitment to run charter voyages.

A self-sufficient sailing ship like Hildur takes you into a remote polar wilderness in an environmentally benign way. You also travelling by your own physical efforts setting sails, hoisting and lowering ships boats.

Experienced Arctic Guide on Board

On schooner Hildur there will be an experienced Arctic guide on board who enhances your voyage. They will be able to tell you more about the wildlife, local culture and some of the technical aspects of navigating and sailing in Greenland.

"there are still great stretches of coast which have never yet been approached by a surface vessel and our knowledge of them has been obtained in boats or native craft along the partially ice free zone between the land and sea ice, by air reconnaissance, or by means of sledging journeys over the ice fringing the land."

Admiralty Arctic Pilot Book 2012

"Hildur aims to take you on a seven day adventure deep into Scoresby Sound to explore part of the remote East Coast of Greenland"
